A note for your diaries: The Spring clean-up weekend will be on 25-27 November 1994. Willing Workers Wanted to get Willy ready for Summer. There are lots of little chores that don't get done over Winter, such as washing down walls & shelves etc, cut and stack excess wood into woodshed to discourage campfires around the Lodge, bring home empty gas & kero containers for refilling, empty ash cans, etc. I look forward to a rush of volunteers.

Remember all food lockers must be emptied by January 1st, 1995. Anything left in lockers after that date will go into the kitchen as community stock.

KIMBERLEY COAST EXPEDITION

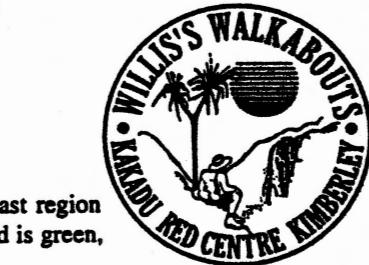

March 26 - April 28 1995

Join us on our longest ever exploration of the rugged Kimberley coast region between the Berkeley and Drysdale Rivers. Come north when the land is green, when the rivers and waterfalls are at their incredible best.

We begin by exploring the area around Berkeley Falls and Gorge then move overland to King George Falls where the river plunges 90 metres into the sea at the head of one of Australia's most spectacular gorges. Finally, we walk to the Drysdale River where we are met by a float plane and flown back to civilisation.

Too long? The trip is divided into three sections. The float plane will bring in two food drops and provide transport for those doing only one part of the trip.

Chartering boats and float planes is not cheap so this trip will be expensive. However, help us by booking early and we'll help you with a discount of up to 20%. For more information about this expedition and the rest of our bushwalking program contact:

What? No Articles or walk reports? Have you all forgotten how to write? Please help me make **The NEWS** more interesting to read, by contributing! Don't worry if you are not so good at expressing yourself on paper, I can use my "editorial prerogative" to make it more readable. What about some of the Wilky Winter Trips. And that adventure on the Northern Wilsons Prom. There must be some stories there.

I will be away during October. I will be going around the coast to Sydney, visiting various National Parks along the way, and doing some walking. I will also be visiting some old members of the Club - past President Alec Proudfoot at Paynesville, the Sparksmans at Tuross Head, the Bryans in Sydney & the Filsons at Booral. I also hope to go ballooning in Canberra! I'm quite looking forward to the break. I will be back in time for the November **NEWS**, so I hope to find plenty of material in the RED BOX when I get back.

If people have complaints about club policy or activities, or in particular about particular leaders, committee members, or members, these should be directed to the Secretary. Any such letters sent to me for publication will be referred to the Committee.

Bob Steel

Closing Date for October **News** is

28th SEPTEMBER 1994.

From the President

I go off to Perth for a few weeks to visit my family and what do you all get up to? Pearson has his head stitched up, Mary breaks her nose on the Northern Wilsons Prom., and Diane has a skidoo ride back to Falls Creek with a broken ankle. Fortunately all are mending nicely.

Keith Langham was in the Clubrooms after a period of absence during which time he has had his head in his books and computer. With some satisfying "A's" to his credit, he can now afford the time to put on his walking boots again.

Welcome to the Team to Sunday walker Nancy Belyer, who was appointed to the Committee at the half yearly general meeting. Bob was also confirmed as **NEWS** Editor and Gina as the second Auditor.

The snow has been kind to the skiers this Winter (after a poor start) but we hope the good season doesn't encourage the developers to make bigger plans to gobble up more of our unspoiled Alpine country.

I found G. W-J's article about lightning in last month's **NEWS** very interesting. We now expect to see the Melbourne Bushies "pulling their heads in" when caught out in an electrical storm.

1970's and early 80's members will remember Peter Arden who was a regular walker. He then went for a second spell in Antarctica & subsequently to Esperance, WA. He is back in Victoria but unfortunately has recently undergone emergency surgery for an aneurism in his head. He is recuperating at Caulfield Rehab. and sent greetings to old friends when I visited him last week.

Have you marked in your diaries for November 18-20 for the Presidents Weekend? More details in next month's **NEWS**.

Jean Giese

Meetings are held in the Clubrooms, MacKenzie St., Melbourne (rear of the Royal Horticultural Society building) on **WEDNESDAY** Evenings between 7.00pm and 9.00pm.

Visitors are always welcome.

PREVIEWS for OCTOBER - DAY WALKS

Sun 2 October ANGAHOOK HEATHLANDS
Easy, E/Med., & Medium

Leaders: Margaret Borden
and Sue & Tony Ralston

Transport: Bus at 9.00 am from South Bank Boulevard

Approx. Distance from Melbourne: 120 kms

Expected time of return: 1900

Area: Aireys Inlet

Approx length of walks: 14, 20, & 22 kms

Map Reference: Outdoor Leisure Map - Otways & Shipwreck Coast

The three walks will all start from the Distillery Creek Picnic Ground. The Easy and Easy/medium walks will follow the circuit track through Ironbark Gorge with its Eucalypts, wattles, Correas, heath, etc. The Easy group will then head off to the Painkalac Dam for lunch and on to Moggs Creek picnic ground, the Ocean Lookout and down to the beach. The Easy/medium group will head north up along the rim of the gorge with its rocky outcrops and good views into the gorge and across to Aireys Inlet lighthouse and the ocean. The track continues up through magnificent areas of wildflowers, including Hakeas and wattles and with more distant views, to Loves Track. There may or may not be a bush bash from Loves Track to Bambra Road (think twice if bare-legged!), then through a valley surrounded by coastal hills and down to lovely Painkalac Dam, to follow the Easy group to the ocean.

The Medium group will start along the Nature Track and continue past Melaleuca Swamp and Fern Grove to Currawong Falls. We then go up through lovely heathland to Loves Track. From Bambra Road, we will head west down to Painkalac Creek and up to Gentle Annie Track (there is a short VERY STEEP section). Down Gentle Annie Track to the intersecting Moggs Creek Track and so along the route followed by the other two groups. In the Springtime, this is a beautiful area with its masses of wildflowers and magnificent coastal and valley views. Keep an eye out for kangaroos near Painkalac Dam. And of course there will be birds. We will be walking on foot tracks and 4WD roads.

Mountaineering in New Zealand

Martin Pocock is looking for people to join him on a Technical Mountaineering Course at Mt Cook in February 1995. Dates of the 10-day course are February 5 to 15, and he will be spending a few extra days there to practice what has been learnt. If anyone is interested contact Martin

Sun 9 October NORTH-EAST LERDERDERG

Leaders: Nigel Holmes and Bernice Webster

Transport: Bus at 9.00 am from South Bank Boulevard

Approx. Distance from Melbourne: 60 km

Approx length of walks: 12 km and 14 km

Map Reference: Lerderderg Forest Park (FCV 1974) & ESMAP (1991) Maps 618 & 641

The easy medium walk is mostly on firebreak tracks, passing through the dry sclerophyll forest that is typical of the area. Occasional deviations will bring the group to damp gullies where maiden-hair ferns and even tree-ferns are a striking contrast against the wildflowers - wattles, heath, native peas & orchids.

The medium group will see even more startling contrasts in the flora & terrain, but with much less reliance on tracks! The scrub can be prickly in patches and the medium walkers can expect to enjoy some fascinating gullies.

16 October BLOWHARD RANGE-COCKPIT CREEK TRACK

After some distance on Loves Track and Bambra Road we will branch off through a wide valley up to the hill above Painkalac Dam, and down to this lovely area where we may see a few kangaroos. From here we will head back to the Distillery Creek picnic ground. There should still be plenty of wildflowers, including Hakeas, wattles, Epacris, etc, as well as lovely views, even though we won't finish up overlooking the ocean.

It is an easy walk, with one reasonably steep climb. Please bring your lunch and wear comfortable shoes. Many of the regular Dandenongs Walkers would have completed this walk before, but please come again! We may have afternoon tea in some local tearooms.

Sun 30 October MURRINDINDI - WILHELMINA FALLS Easy & E/Medium

Both groups will join forces at the Wilhelmmina Falls for an easy stroll back to the bus at the suspension bridge.

MT BOGONG SKIING

Leader: **Marilyn Whimpey**
 Transport: **Private**
 Approx. Distance from Melbourne: **350 kms**
 Expected time of return: **late Sunday**
 Area: **N.E Victoria, near Mt Beauty**
 Approx length of walk/skiing: **? depends on weather/party**
 Map Reference: **Outdoor Leisure Map: Bogong Alpine Area 1:50 000**

The road to Trappers Gap has become too muddy for small 4WD vehicles so we will have to start at Mountain Creek and climb 1 400 metres up the Staircase Spur, carrying our packs & skis. The weather will determine where we camp and we may have to melt snow for water. Once we have set up camp we will spend the weekend skiing the many interesting & challenging gullies & ridges on the mountain. Not for inexperienced skiers!

MELVILLE CAVES - BASE CAMP

Leader: **Rosemary Cotter**
 Transport: **Private**
 Approx. Distance from Melbourne: **218 kms NW of Melbourne**
 Expected time of return: **2000 on Sunday**
 Area: **Between Wedderburn & Dunolly**
 Approx length of walks: **12 - 14 kms each day**
 Map Reference: **Rheola North 1:25 000**

The best description is a quotation from Fred Hall's book *The Kooyoora Country by Road and Track* (Algona, 1981) "This is not a high range of mountains - Mt Kooyoora (480m) is the highest point - but the region holds great fascination with its multitude of boulders and granite slabs set amongst forests of red gum, ironbark and box, and also mallee scrublands; all with their accompanying natural wildflower gardens".

It is indeed a fascinating area. Last year we visited the same place in August and saw lots of emerging orchid basal-leaf growth. Hopefully this year we should see the orchids in abundance. We will be camping away from the main picnic ground. Saturday's walk will be a circuit walk from camp, taking in the Caves. On Sunday we will walk to Mt Kooyoora.

 Approx. Distance from Melbourne: **249 kms**
 Expected time of return: **Sunday evening**
 Approx length of walk: **From 2 kms to 15 kms or more**

It will be a base camp at Halls Gap, in the Camping Ground there. Camp fees are \$10.50 for 2 nights or \$6.50 for 1 night. There is some limited cabin accommodation available if you prefer. Most walks start between 0900-1000 on Saturday & Sunday mornings, with a few walks additional walks starting after lunch. (Some walks are half-day, others full day) I will put a leaflet detailing the program on the noticeboard next to the booking list. It should be a fun weekend, with plenty of variety in the walks program, as well as being a good chance to meet walkers from other clubs.

Approx. Distance from Melbourne:	280 kms
Expected time of return:	Tuesday evening
Area:	Near Whitfield, NE Victoria
Approx length of walk:	72 kms; 21 kms without packs
Map Reference:	VMTC Wabonga Plateau or Whitfield, Lake William Hovell & Mt Typo 1:25 000

Have you explored the Wabonga Plateau? Have you heard of it? (It is north of Mt Cobbler, between the King and Rose Rivers.) GRAMPIANS - VICTORIA RANGE

Leader:	Peter Chalkley
Transport:	Private
Approx. Distance from Melbourne:	335 kms
Expected time of return:	2200 on Tuesday
Approx length of walk:	40 kms
Map Reference:	Southern Grampians (Outdoor Leisure Map); Victoria Range 1:25 000

The walk will largely be a repeat of last year's popular walk in this area - some will remember Derrick's entertaining write-up "The Victoria Range or How to Raise your Blood Pressure". Over the four days we will visit some of the Victoria Range's main attractions including The Fortress (the scaling of which inspired Derrick's article), Mt Thackeray, Hollow Mountain (the other one), Red Cave and the Cave of Hands. A feature for some might be the camp we make in one of the several spacious grottos at the base of the Fortress.

RAMSHEAD RANGE SKIING

Leader:	Graeme Thornton
Transport:	Private
Approx. Distance from Melbourne:	520 kms
Expected time of return:	very late Tuesday Night
Area:	Kosciusko National Park, NSW

Approx length of walk/skiing:	3-4 hrs walking plus day ski tours
-------------------------------	------------------------------------

Map Reference:	Kosciusko National Park map Second edition
----------------	--

The southern Ramsheads are one of my all-time favourite campsites. On a clear sunny day the views along the Crackenback, over the Pilot and the Cobberas and towards the Victorian Alps are stunning. But, being alpine, it can change rapidly into a bleak, wind-, rain- and snow-swept desolation! As those who were with me 3 or 4 years ago will well remember.

We will park the cars just down from Deadhorse Gap and climb up a steep to very steep slope to the tree line, approx. 1½ - 2 hours walking (not skiing, usually). I normally basecamp in one place for three nights, but this can be varied to suit the conditions.

The snow has generally retreated by this time of the year but there should be ample opportunity for docile to desperate skiing on late Spring snow.

28 Oct.-1 Nov

RANGES EASY/MEDIUM

FLINDERS

Leader:	David Vincent
Transport:	Private - flying
Approx distance from Melbourne:	1 000 kms by air
Expected time of return:	Tuesday evening
Approx length of walk:	40 kms
Area:	Wilpena Pound
Map Reference:	Wilpena 6634 1:100 000

There has been plenty of winter rain in the Flinders Ranges this year so the wildflowers should be prolific. By privately hiring a light aircraft, travelling time is minimised. The proposed itinerary is:

Sat 29 Oct: Early morning departure from Moorabbin and fly to Wilpena Pound in the Flinders Ranges via Port Augusta (for fuel). Lunch at Wilpena then half day walk to Cooinda and set up base camp near a large rock swimming hole.

Continued next page

Weekend Pack-Carry Walks continued:**Flinders Ranges**

Sun 30 Oct: Day walk to St Mary's Peak for spectacular views of Northern Flinders Ranges that snake their way to the far horizon of inland Australia. Late afternoon swimming at base camp.

Nigel HOLMES

Mon 31 Oct: Day walk to Glenora Falls via the colourful Edowie Gorge. This gorge is one of the most impressive in the Flinders Ranges and the walk as far as Glenora Falls is quite spectacular. Lunch and swimming at the large rock hole above the falls.

Tues 1 Nov: Half day walk to Wilpena for lunch. Ice creams before departing Wilpena and flying to Melbourne.

For a group of six including leader the estimated cost of the aircraft private hire is \$190 each. To reserve a place on this walk, contact David Vincent

Committee Notes

FVWC - has developed a "Conservation Policy Document". See Alan Clarke for more information.

Conservation: Vic. Govt. has apparently backed down on the proposal for 99-year grazing leases of river frontages & road reserves. There will now be 35 year leases to farmers with 5 year reviews.

Track Clearing: We will participate next year in the official FVWC Track clearing w/end.

The Secretary will be sending a letter to Art Terry about the points raised at the Half Yearly general meeting.

Trail Fees at Falls Creek: We received a response from the ARC, justifying the imposition of fees for ski-tourers going out onto the High Plains to camp or to Wilky.

Treasurer: August Report:
