PRESIDENT'S CORNER – JULY

In the President's Corner in the June newsletter our President told us he would be away on a bike riding adventure in Europe for some time. His 14-week adventure with Carol continues and they have made great cycling progress carrying all their gear through France and on towards Eastern Europe in their intrepid journey ending in Turkey. According to the last very positive email from Mick and Carol they are doing well and enjoying the ride along rivers and canals (with some hills) – with a broken rib and a bout of gastro for Mick and a flat tyre for Carol! They expect more hills as they head south in Eastern Europe through Bulgaria to Turkey.

With Mick away I was called upon to act in his place, an easy job with an experienced, energetic committee and the past Vice-President doing lots of work and offering a guiding hand to me as the novice. The Committee meeting for June was held on 23 June after the deadline for this newsletter. Outcomes of that meeting will be reported in a future newsletter. The members of the committee continue to work tirelessly carrying out their roles and the many tasks and hours of work that involves. I am reminded how grateful we should all be for their commitment to the club.

I was not at the June meeting as I left for seven weeks trekking on the far western sections of Great Himalaya Trail in Nepal on June 9. An interesting time in monsoon season and as I write this I am hoping landslides and swollen rivers will not impede the four participants and our crew too much.

Cathy Merrick, our Secretary will preside at meetings in the absence of the President and Vice-President until my return on 31 July. We look forward to seeing Mick back in August.

Bushwalking Victoria held its Leaders' Forum and AGM on June 14. The Leaders' Forum discussed the issue of commercial activities in National Parks and other protected areas. Bushwalking Victoria used the day to unveil its new brand and logo and its new standards for how the organisation communicates. In the June newsletter of Bushwalking Victoria the President indicated that in 2014/2015 the organisation proposes to look at enfranchising individual members, establishing partnerships and promoting bushwalking to a wider public. BWV proposes a consolidation of past work in offering training programs in responsible bushwalking to individuals and the development of a website promoting a one-stop shop where bushwalkers can access information about bushwalking trips in Victoria.

Bulletin number 2 about the Federation Walks Weekend planned for November 7–9 notes that registration will be in two parts. First there will be registration for an accommodation/meals package with separate registration for walks. Further information is on the 2014 Federation Walks Weekend website – www.fedwalks.org.au or contact our club co-ordinator Mark Heath.

On 21 May Mark Heath and I attended a Victorian National Parks Association presentation about its work, particularly future proposals. A significant project is its action against cattle grazing in parks. On 16 May the Victorian National Parks Association filed a writ in the Supreme Court of Victoria claiming the Victorian government had failed to meet its obligations under national parks laws by allowing a cattle grazing trial to go ahead in the Alpine National Park. The VNPA is seeking to have the trial declared unlawful as well as seeking an interim injunction to stop cattle grazing in the park.

Reminders for this month:

- 1 **Membership renewals** were due by the end of June with reminders going out at the end of May to individuals who had not renewed. There is no need to come into the club rooms to renew, an EFT or post option is available. See the FAQs on the website for details. Please update any information including emergency contacts that may have changed. Don't delay if you want to continue to enjoy the many activities the club has on offer.
- 2 **Thank you.** Make July the month to thank a hard working leader, committee member or one of the many people in non-committee roles in our club. Without these people you would not be able to enjoy the safe, sociable, enjoyable activities the club offers in the great outdoors. My short time on the committee has reminded me of the amazing energy and enthusiasm these people all provide to our club.
- 3 **Spring Program.** The activities co-ordinators will welcome contributions to the activities for the Spring program. Spring is a time for renewal and new leaders will be welcomed.
- 4 **First Aid Course.** See the note in this newsletter about the up coming First Aid course.

I hope you are able to get out and enjoy the varied activities on offer in our second month of winter, a time to enjoy the countryside and bushland refreshed by the rain.

Wednesday 23 July 2014 in the Clubrooms HOW TO SAVE A JUNGLE – HIKING IN THE CARDAMOM MOUNTAINS OF CAMBODIA

A recent experience of community based eco-tourism in Cambodia where local village people guide hiking trips through the extensive jungle of the Cardamom Mountains. Villagers are thus receiving an income from tourism and the forest is protected from illegal logging and poaching as a result. Cambodia is relatively close and economical for Australians to visit, and this is a very accessible trip for those who enjoy hiking and cultural exchange in a beautiful natural environment.

Wednesday 27 August 2014 SLIDE NIGHT: SOME ADVENTUROUS MOMENTS IN BUSHWALKING

John Fritze has put together a slide show of some of the more adventurous activities we get up to, the beautiful places we visit and some inspirational moments he has encountered along the way. It's a celebration of bushwalking!

Come along and enjoy it with a glass of wine and a biscuit.

Wednesday 22 October 2014, 8 pm CFA BUSHFIRE WORKSHOP FOR BUSHWALKING CLUBS

The CFA has recognised that people spending time in bushland from November to April each year need to be made aware of the risks relating to bushfires.

The CFA has put together a presentation specifically for bushwalkers and includes the following topics:

- Travelling and hiking in a high-risk area
- What to do if caught in a vehicle during a bushfire
- Understanding Fire Danger Ratings and how to plan a walking holiday around them
- Not travelling into high-risk areas on bad days – rearranging your plans
- Going to a Victorian Visitor Information centre for further information.

CFA has some great resources specific to bushwalking and travelling in high bushfire risk areas that they can make available to the Club.

PACK CARRY KANANGRA WALLS TO KATOOMBA 17-21 APRIL 2014

We all met around 1:30 pm on the Thursday before Easter at Katoomba YHA, where we left a change of clothes for after the walk. We then were transported by pre-booked 4WD via the scenic route past Jenolan caves to the start of the walk. We had an excellent campsite with a roaring fire for the cool night. The previous week's rains had passed and the weather was forecast to be beautiful for the entire walk.

On Friday we found that we had an extra six kilometres warm-up before starting the walk as we had been dropped off a little earlier than planned at Boyd river camping area rather than Kanangra Walls – this made for a bright and

early 7:00 start! The track out along the plateau is very rocky and a little overgrown, but being a classic Blue Mountains walk we expected classic views and were not disappointed. The Walls are spectacular orange-grey sandstone cliffs towering above the Kanangra Creek gorge. Waterfalls cascade off the plateau into the vast depths below and the views are awesome.

Having lost count of how many ups and downs and rock scrambles we'd done, we hauled ourselves up to Mt High and Mighty. The views from the top were good and so was lunch. We continued on to Mt Stormbreaker. Then up and down around Rip, over Rack, around Roar and over Rumble, to reach Mt Cloudmaker. Following the ridge we descended down to camp at Dex Creek. Lucky for us an earlier walker had started a campfire so after dinner and 21 km we all slept soundly.

The next morning we had another early start and off to Mt Moorilla

(continued over page)

Along the Track

KANANGRA WALLS TO KATOOMBA *(continued from previous page)*

Maloo, then the aptly named Mt Strongleg. After that the trail went steeply downhill for a knee trembling hour and a half to Kanangra Creek. Having refreshed our burning toes in the cool water as we crossed Cox's River, a lunch stop was called as we soaked up the views along the riverbanks. The next section up Yellow Pup Ridge was the longest climb on the walk. Finally at the top, the trail continues along the flats below Mt Dingo to Mobbs Swamp, our campsite for the evening. Having arrived there as the sun was setting, we dined quietly by headlamp and slept soundly to the whisper of wind in the she-oak trees.

The next day the walk began with a relaxing few kilometres until a steep climb over Mt Debert through pleasant open forest. Before long we were at the base of Tarro's Ladder. This is a set of climbing spikes fixed into the rock face. The climb is about 8 m and difficult with a full pack. Fortunately Agajan had brought pack hauling rope and so a human chain was established up the rock face to the top. The view here is excellent, more so after a surge of adrenaline from the climb!

In no time the walk reached a fire trail along Narrow Neck Peninsula and a steady climb to the fire tower at Bushwalkers Hill for lunch. After plenty more spectacular views and countless ups and downs, as well as a snake encounter, we finally reached the comfort of the YHA at Katoomba, where we had excellent accommodation for the night. For most of the walk we felt we were truly in the wilderness, there were no signs, and the tracks in many places are very vague. However our skilful leader navigated the team easily through some challenging terrain.

Thanks to everyone who came on the walk for such an enjoyable experience. On Monday Agajan, Deb, Judith, Richard and Ian returned to Melbourne by train and plane and I drove back.

The walk begins at Lawson Spring inside Vaughan Springs Reserve where we cross the Loddon River and head south along an undulating track through areas of forest and the relics of extensive mining which took place in the 1850s. Half way through the walk we leave the trail and strike out east along Sebastapol Creek then north to eventually rejoin the Loddon River and follow it back to Lawson Spring and the car park.

This is a delightful walk mostly along well formed walking trails or vehicle tracks. The off-track section is lightly forested and easily traversed, while the few hills encountered are gradual ascents and descents, the highest being 400 m.

There is the opportunity at the end of the walk to sample the mineral water but if something more stimulating is required, Malmsbury is on the route back to Melbourne and serves good coffee.

On previous walks in the area we have encountered powerful owls, darters sitting on logs in the river, echidnas and mobs of roos.

CROSS-COUNTRY SKIING

BOGONG HIGH PLAINS

DISTANCE Initially 12 km, with packs
LEADER Doug Pocock
TRANSPORT Private
AREA Bogong High Plains

Again we have the opportunity to enjoy the untracked expanses of the High Plains in winter. Staying in a basic but comfortable chalet 12 km away from the distractions of Falls Creek we tend to have the snow to ourselves, rarely seeing anyone else. There tends to be two or three trips organised each day catering to everyone’s inclinations or skill levels. A voluntary roster is drawn up to ensure all jobs are done so the week runs efficiently giving maximum time for skiing.

Past skiers are welcome to return and newcomers are encouraged to discuss requirements for joining us. Contact Doug Pocock or Marilyn Whimpey.

SUNDAY BUS

BLACKWOOD RANGES TRACK

DATE Sunday 10 August 2014
RETURN TIME 6 pm
STANDARDS Easy and Medium
DISTANCES 15 and 19 km
LEADERS Quentin Tibballs and Tracey Jamieson
TRANSPORT Bus – Leaving Southbank Blvd at 8:45 am
AREA Bacchus Marsh
MAP REF Lerderberg and Werribee Gorges Meridian Maps 1:35,000

This is a new walk along country lanes and the Blackwood Ranges Track, which is an old fire track part of which is undulant through open forest and part along a ridge immediately west of the Lerderberg River from which distant views of the Blackwood Ranges may be had. There is a common 15 km walk for both groups; however the Easy group has the option of including part of the Long Point Track towards the Lerderberg Weir depending on time. The Medium group in addition to the common walk will descend down Link Track No 2 to the Lerderberg River, track this river for the 2 km to Grahams Dam then ascend Link Track No 1 to rejoin the Blackwood Ranges Track. Walkers should note that the vertical distance for both the link tracks is about 250 m and both are quite steep so footwear with good traction is required – you can also expect two river crossings. If you decide on the Medium walk and find the ascent up Link Track No 1 too difficult an option is you could return down the track to Graham’s Dam then walk the 2 km out to Mackenzies Flat and the bus could pick you up there.

WEDNESDAY WALK

RETURN TIME 3:00 pm back to cars
STANDARD Easy/Medium
DISTANCE 12 km
LEADER Mary Daley

A pleasant circuit walk starting and finishing in Steiglitz, a once booming gold mining town. The walk commences by following Sutherland Creek and includes approximately 500 m of rock hopping before the track leaves the creek and heads through bush and open forest. There are many signs of the gold mining past, including the sites and mullock heaps of several old mines. The walk finishes by walking up Regent Street which was once Steiglitz’s main street. The site of the old Steiglitz Coffee Palace reveals a particularly poignant tale.

Meet at 10:15 am for a 10:30 start in the car park at the Steiglitz Courthouse.

SUNDAY BUS

DROMANA – ARTHURS SEAT – GREENS BUSH – CAPE SCHANCK

DATE	Sunday 24 August 2014
DISTANCE	Easy/Medium 15 km; Medium 20 km
LEADERS	Mick Noonan and Christina Hughes
TRANSPORT	Bus – Leaving Southbank Blvd at 8:45 am
AREA	Mornington Peninsula
MAP REFERENCE	Two Bays Walk Notes and Melway maps 258 and 259

The views across the bay are stunning, the wildlife, bird life, flora and fauna are exceptional and like no other walking track on the Mornington Peninsula.

The medium walk, extra distance, involves climbing to Arthurs Seat via the OT Dam then taking the bus down to the start of the easy/medium walk at Baldry's Crossing. Both walks follow the same route from Baldry's Crossing, passing through Greens Bush and Highfield Parks, across Boneo Road, then past Bushrangers Bay, finishing at Cape Schanck.

Some of the best coastal scenery near Melbourne

Time permitting either walk has the possibility of a detour to the beach at Bushrangers Bay and the boardwalk at Cape Schanck. Greens Bush is the largest remnant of bushland on the Peninsula, with vegetation varying from eucalypt forests to fern gullies, heathlands and grasslands. It's a pleasant walk on good tracks.

Optional Pick Up location: Pick-ups are possible at the off ramp just before the lights of the Monash Freeway at Fosters Road. Contact a leader if you would like to arrange a pick-up.

SOCIAL WALK

DAREBIN PARKLANDS

STANDARD	Easy
DISTANCE	5 km
ELEVATION	Small hills
LEADER	Jean Giese
TRANSPORT	Private
AREA	Alphington
MAP REF	Melway 31

Meet in the carpark off the end of Separation Street (Melway 31D9) to start walking at 10:30.

SUNDAY BUS

COWBAW RANGES

DATE	Sunday 31 August
RETURN TIME	6:30 pm to City
STANDARDS	Easy/Medium and Medium
DISTANCES	15 km and 18 km
ELEVATIONS	500 m and 700 m
LEADERS	Ian Mair and Halina Sarbinowski
TRANSPORT	Bus – Leaving Southbank Blvd at 8:45 am
AREA	Cobaw Ranges west of Lancefield
MAP REF	Rooftop's Cobaw Ranges Forest Activities Map

The Cobaw State Forest just north of Hanging Rock is a haven for wildlife and is characterised by huge granite boulders within a natural forest setting. Within an easy one-hour drive from Melbourne its popularity with bushwalkers has waned a little due to the attraction the rugged terrain has for trail bikes. However, by a careful selection of lesser-used tracks and long stretches of off-track walking through easily navigated country the natural attractions of the area can be enjoyed by all. We get close and personal with some of the huge granite outcrops and cross serene forest openings as we pick our way over fallen trees and through bracken thickets under the watchful eye of kangaroo and wallaby.

Both walks follow a similar route for most of the day with the longer walk taking in a few extra hill climbs near the start and longer sections of off-track walking. Due to the nature of the country to be followed off-track and the steepness of some of the hills the walks have been graded as Easy/Medium and Medium. A good level of fitness and comfort with walking over untracked rough ground is required; however, none of it is technically difficult.

Take this opportunity to find out a bit more of what the 'bush' in bushwalking is all about and experience a little of what few people have the chance to enjoy. Discuss the walk with the leaders if you need more information on whether it is right for you.

PACK CARRY – EARLY NOTICE

WILSON'S PROMONTORY

DATE	25 to 28 September 2014

Walk from Telegraph Saddle via Sealers Cove to camp at Refuge Cove on Friday night and then walk down the east coast via Waterloo Bay to stay at the Lighthouse cottages Saturday night. It is then a longish walk Sunday to Tidal River via Little Oberon Bay. It will cost \$12.50 to camp at Refuge Cove and \$133.80 to stay the night at the lighthouse cottages, i.e. \$146.30 per person.

**EXPRESSIONS OF INTEREST
MILFORD TRACK / HOLLYFORD
TRACK**

January 17–26 2014

This walk will run back to back with Ian Mair's Routeburn / Kepler walks in January. Starting from Te Anau on January 17, this will be a nine day walk, four days along the Clinton River, up over Mackinnon Pass and down the Arthur River along the famous Milford Track, to an overnight in civilization in the village of Piopiothi in Milford Sound. The next morning we will literally fly over the mountains to two valleys north at the mouth of the Hollyford River. We will have an optional day exploring the shores of Big Bay and hopefully come across the seal pups nursery. We will then spend four days walking up the Hollyford River along the Demon Trail / Hollyford Track. We will walk out of the Hollyford on the afternoon of Australia Day January 26 and be whisked direct to Queenstown by bus to arrive early evening. Although this is a continuous nine day walk it will be possible to leave or join the walk at Milford Sound when we overnight there on January 21. On the afternoon of January 21 there will be an optional two and a quarter hour Encounter Nature Cruise on Milford Sound.

The most strenuous days on the trip are likely to be days 2 and 3 when we go over the 1154 metre McKinnon pass, the second half along the Hollyford should be easier with no major passes. However overall it will be a challenging walk with nine continuous days and some long days in terms of time and distance.

To express interest and get further information please contact David Walsh preferably by email on kiewa@optusnet.com.au as I will be away skiing much of July. The Milford Track is a very popular Great Walk and you must pre book the huts. For 2015 bookings are expected to open around mid-July and it is expected that the dates for this trip may book out very quickly. If you are considering joining this trip I suggest you ask for the detailed information as early as possible.

Bus transport meets at Southbank Boulevard, south side of the Arts Centre, before 8:45 am. Leader or deputy will be there rain, hail or shine!
