

Emergency Contact System – Members’ & Visitors’ Basics

Take your own mobile

- So you can ring or sms family & friends if you will be late
 - Preferably a mobile with good remote area reception
- Turn off the mobile in remote areas to conserve the battery, until it's needed
- If you must leave it on, put it on vibrate so as not to disturb the enjoyment of others

Club Emergency Mobile **0447 489 661**

Recording includes: **Information about any significant delays**, and the **Club Emergency Contact** names and numbers

The Club Emergency Mobile is left turned off, so a call goes directly to the recording
.....don't expect anyone to answer!

All Club Programmed Activities:

- **Before you go, tell anyone who may become concerned**, the location of the trip, method of travel, expected Return Time and the Club Emergency Mobile Number
- If there will be a **significant** delay, the Leader will attempt to ring or sms a Club Emergency Contact, in order for them to include a delay message in the Club Emergency Mobile recording
 - o Delays of **1-2 hours for a day activity** and **3-4 hours for a multi-day activity** should not cause alarm
- **If you are on a trip that is late**, try to directly ring anyone who may become concerned

Pack Carry/Walk-In Base Camp Activities:

- **If**, after checking the Club Emergency Mobile for messages, **people are still concerned, they should ring a Club Emergency Contact**
- It should not be necessary to ring a Club Emergency Contact for other types of Activities
